SEALPRO 20

ENG

SEALPRO 20

minipack®

DESCRIPTION

The **Sealpro 20** is a compact stainless steel table-top tray sealer.
It's fitted with a thermoregulator for a precise setting of the sealing temperature and with a teflon coated sealing plate.
It's the ideal machine for grocery stores and supermarkets.

The Sealpro 20 can be equipped with a double die in one piece which, with a simple extraction and rotation allows a simple and immediate tray size change.
