

MINIMA EVO

Minima Evo: the small, versatile shrink-wrapping machine

MINIMA has always been the smallest model in the range of packaging machines offered on the market by **minipack®-torre**. Designed for small and medium-sized production companies, this **chamber shrink-wrapping machine** makes versatility and minimum footprint its key strengths. Absolute reliability and high performance, combined with low energy consumption and ease of use, make **MINIMA** a machine that is unique in its category.

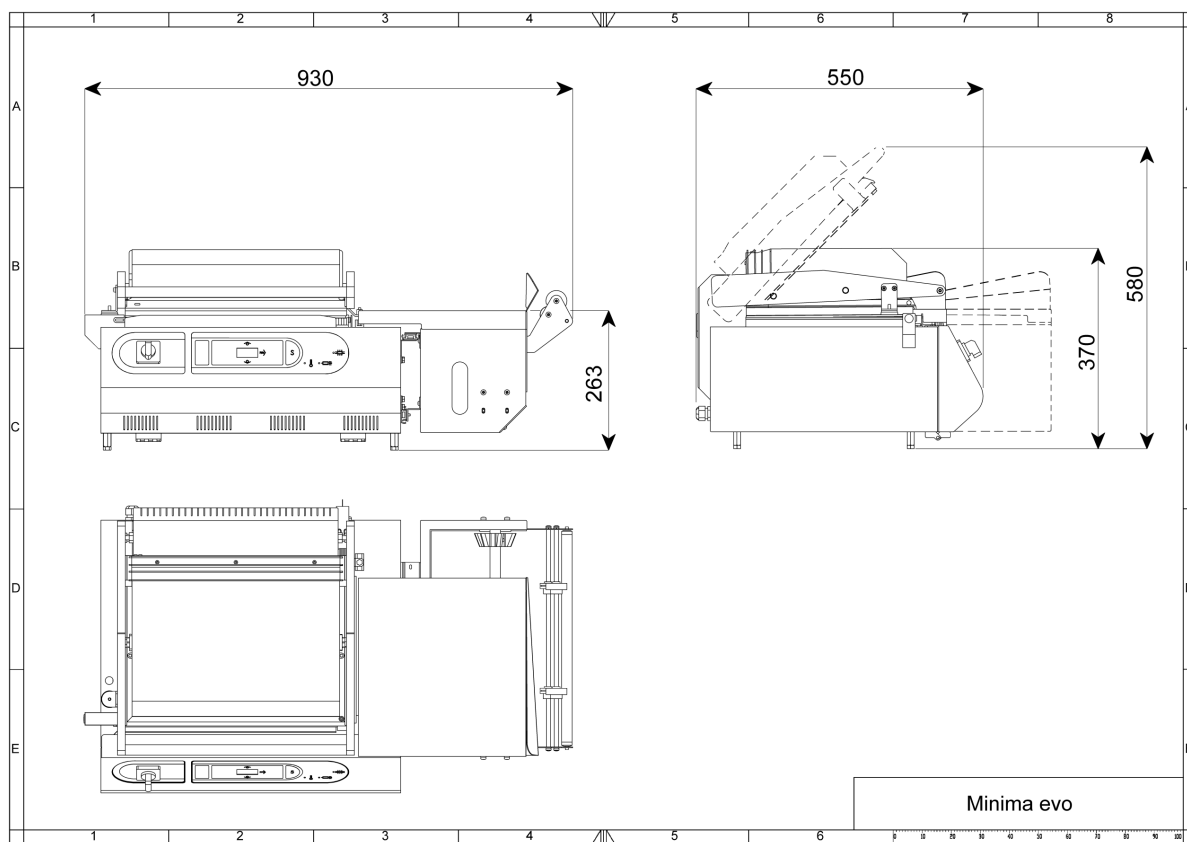

TECHNICAL FEATURES:

- Electronic board for optimal control of sealing and shrinking, with 10 preset programs selectable from the display. 4-digit display
- Enlarged roll holder designed to accommodate standard Ø200×350 mm rolls: long operating autonomy and fewer productivity stops.

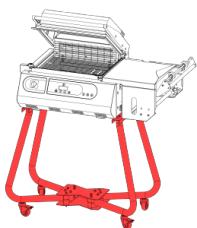

Technical data

Power supply	230V 50/60Hz 1Ph
Maximum installed power	1,2 kW (230V)
Maximum electrical absorption	6 A (230V)
Hourly production (variable depending on the type of film and the size of the product)	0-300 p/h
Maximum roll dimensions	Ø200x350 mm
Mass dimensions of the product (the measurement of mass cannot be ottenute contemporaneously)	350x240x140 mm
Machine dimensions (hood open)	930x550x580 mm
Machine dimensions (hood closed)	930x550x370 mm
Machine weight (net/gross)	36/48 kg

Layout and technical data sheets

Optional

Stainless steel trolley Minima evo

CA38I002

Stainless steel trolley. Sturdy and easy to handle, with a 925 mm worktop height. The 4 swivel castors, 2 of which are fitted with brakes, ensure excellent manoeuvrability.
