

ECOMODULAR

ECOMODULAR: the simple, manual shrink wrapping machine with the largest sealing area in its category

A large sealing surface of 570×420 mm is the distinctive feature of **ECOMODULAR**, a simple and practical manual L-sealer. The sealing blade, positioned in the lower part, is equipped with a simple and effective temperature control system and provides optimal sealing with all types of film.

This **L-sealer** with product evacuation belt can be completed with **TUNNEL 50**. This solution makes it possible to obtain perfectly shrink-wrapped packs that meet any packaging requirement.
